Fashion is passion, creativity naturally in the veins since in my child hood. good eye for good taste in fashion and in everything needs creativity. I'm spontaneous creativity human kind. Everyday of my life is an art and full of energy to create or to inspire. 2009 when I discover my magic country Kenya, Malindi, I got inspired to make a difference to the artisans, in Malindi. Making a difference to those who needs the most is a great pleasure from my heart. The Opium collection comes from the heart and a happy place. Most of the profit goes to the people who needs the most and generate back to the team to keep them working. I love using the soft organic cotton fabric for my creation. Feels great and comfortable on the skin and lightweight. It's perfect for sunny days and places. Opium collection is more about feeling comfortable and looking cool with Bohemian style. It's all about expressing your authentic style.
